Grabbing red envelopes has been hogging the limelight in our daily life since the 2016 Spring Festival.At no point is it clearer that this activity has endowed our vapid life with the flavor of high-tech and fun,especially giving traditions typical of festive periods,such as the Chinese New Year and Chinese Valentine's Day,a facelift.

However,some people may be trapped in a situation where they put the cart before the horse.Disappointingly,what some people do on festivals is not to communicate with their relatives and friends but to hold their cell phones and fix their eyes on the screen all day long,just in order to grab red envelopes.For my part,what really matters is the relationship instead of the money.Essentially speaking, gifting red envelopes is beyond reproach.Only in a rational way shall we not be reduced to slaves of materialism or hijacked by the high technology. Festivals offer precious opportunities for us to send good wishes to our beloved ones and what we should do is to cherish these chances rather than to ignore the essential connotation of the festivals.Anyhow,kinship,friendship and other relationships are above anything and we ought to make every endeavor lest the profound cultural atmosphere of traditional festivals should decline.

【译文】自 2016 年春节以来, 抢红包已经成为我们日常生活的焦点。再清楚不过的是, 这种活动为我们枯燥的生活增添了高科技和乐趣, 尤其是让传统节日(如中国新年和七夕情人节)焕然一新。然而, 有些人可能会陷入本末倒置的境地。令人失望的是, 有些人在节日里做的不是和他们的亲戚朋友交流, 而是整天拿着手机, 盯着屏幕, 只是为了抢红包。对我来说, 真正重要的是关系而不是钱。从本质上讲, 发红包是无可非议的。只有以理性的方式, 我们才不会沦为物质主义的奴隶或被高科技劫持。

节日为我们向亲人送上祝福提供了宝贵的机会，我们应该做的是珍惜这些机会，而不是忽视节日的本质内涵。无论如何，亲情、友情和其他关系高于一切，我们应该尽一切努力，以免传统节日的深厚文化氛围下降。

- (1) The subjects and respondents of the investigation.
- (2) Analysis of investigation result.
- (3) Your opinion or suggestions about college students' reading.

参考范文:

Recently we have conducted a survey among 200 college students to find out their reading preference. As can be seen in the pie chart, 27 % of the surveyed said they spent most of their time reading magazines and books for entertainment. What ranks the second are books of literature and applied technology, and they each account for 25 % . The percentage

decreases to 15 % as to students who prefer to read books relevant to their majors, while only 8 % tend to read popular science books during their spare time.

It should be noted that books of literature, applied technology, and entertaining books like magazines are main interests of college students. That's because these kinds of books are fun and easy to read; what's more, they bring students some cutting-edge information regarding books of applied technology. The percentage of students who like to read

professional books is relatively lower may be due to the reason that these books are hard to understand and time-consuming.

To sum up, the data reveals a serious problem that college students' reading preference stays at a relatively shallow level since the percentage of reading magazines exceeds that of literature and professional books. We thus suggest that colorful reading activities like recommending great books be carried out to help students develop capabilities of appreciation and criticism.

An Investigation Report on the Types of Reading Books of Chinese College Students Investigation object: 200 college students in China in 2016; Survey results: 25% of the literature, 27% of the books for entertainment, 25% of the applied technology, 15% for books relevant to their majors and 8% for the popular science books. The results show that the students of our country have a preference for the entertainment, the literature and the application technology, and the addition has been close to 8%. While professional and popular science books have fewer people to read. We suggest that students should use more time and energy to read some of the world undefined leading topics in this field. It is also necessary to read some books of science and technology as appropriate. This can be done faster and better after graduation, work well and be well understood in the area of general science.

1. Investigation time

December 2020.

2. Objects of investigation

200 college students at the National Open University Pingdingshan campus.

3. Analysis of survey results and recommendations

After several days of investigation and practice, I have a further understanding of the reading preferences of college students. Through statistical analysis of the questionnaires and data sorting, I have summarized a series of reading preferences of college students:

30% like to read literature books;

27% like to read entertainment books;

20% like to read applied technology books;

15% like to read professional books;

8% like to read popular science books;

Suggestion: College students should read more books on party history education, so that they can become the pillars of the country.

(The form below illustrates financial sources based on a survey of American college students and Chinese college students. Please write a report according to the information given below.)

1. 描述中美大学生经济资助状况

2. 分析这种状况的成因

【参考范文】

Financial sources of Chinese college Students are quite different

from those of American students. In China, students get 90% of their money from their parents while in America, only 50% of students' money is provided by parents. In addition, Chinese students earn only 5% of their money from part-time jobs and 5% from fellowship or scholarship while income from these two resources for American students takes up (占) 35% and 15% respectively of their total income.

I think there are probably three reasons for their differences. First, because of the influence of different social and family values, Chinese students have formed the habit of asking for money from their parents while American students have developed more sense of being financially independent. Second, most Chinese parents devote too much care to their children and they would rather save up to afford their children's education rather than encourage them to take part-time jobs."

But in America, many parents pay more attention to developing the students' ability of self-reliance (AL), so they encourage their children to find part-time jobs to earn some money by themselves. Third, since America is more developed than China, it is relatively easy for students to find part-time jobs. In China, such opportunities are rather rare.

I believe with the development of China, more and more Chinese students will realize and pay more attention to the necessity of self-dependence (独立). In addition, more and more opportunities will be provided for them to take part-time jobs. So, more students will go out of the ivory tower (象牙塔) to broaden their knowledge and to become the master of their own lives.

首先，由于不同社会和家庭价值观的影响，中国学生已经形成了向父母要钱的习惯；而美国学生在经济上更加独立。其次，大多数中国父母对他们的孩子们投入过多的照顾，他们宁愿省下钱来负担孩子的教育，也不鼓励他们做兼职工作。但在美国，许多家长都更加注重培养学生的自立能力，因此他们鼓励孩子们找兼职，自己赚钱。第三，因为美国比中国发达，美国学生找到兼职工作相对容易。

而在中国，这样的机会是相当罕见的。我相信随着中国的发展，越来越多的中国学生会意识到自我独立的必要性。此外，应为他们提供更多兼职机会。这样，更多的学生将走出象牙塔，拓宽自己的知识，成为自己生活的主人。

(Please write an essay of no less than 100 words entitled Popularity of Green Food according to the outline given below.)

- 1.绿色食品现在越来越受到消费者的青睐;
- 2.为什么绿色食品如此受欢迎;
- 3.绿色食品将有更大的发展空间。

【参考范文 1】

Popularity of Green Food

Due to its high-quality and original tastes, green food appeals to more consumers. From supermmarkets to chain stores, green food is found everywhere.

Why is green food so popular even though its price is usually higher than other food? On the one hand, recently a series of issues on food safety makes customers disturbed and anxious. In order to have the reliable food, more housewives opt to select green food for their family. Green food has been labeled as a kind of healthy, delicious and fashionable food. This is perhaps the most important reason for the popularity of green food. On the other haod, with the advance in living standard, people will pay more attention to the quality of food and their raised income is enough to cover the expenditure of food with a comparatively high price.

With the development of the society, green food is certainly to hold a larger portion in the market. In the near future, people will be accustomed to enjoy the fresh vegetable, fruits and cereals without pesticide residues, artificial feed and contarnination.
