The advantages of formal education are self-evident. First, the students have regular classes, and they meet teachers and classmates every day. Therefore, when they have difficulty in learning, they can discuss with their classmates or turn to their teachers for help. Second, the students can attend different activities to enrich their life, which helps students develop their friendship. Third, the students can borrow books from the library. However, the disadvantages of formal education are undeniable. First, the cost of the formal education is high. Second the formal education is not as flexible as open education. Third, the students don't have much choice because everything is set beforehand.

The formal education's advantages and disadvantages are shown clearly to us. I think we should make good use of advantages. On the whole, the advantages of formal education outweigh the disadvantages of formal education.

It breaks the limitations of traditional teaching in time and space. Besides, it is easy to broaden the knowledge of college students, making the academic evaluation more open.

It is impossible for every student to have self-discipline. Besides, the quality of courseware on demand is greatly affected by the network environment. There are a large number of online teaching students, so we should make adequate preparations. Besides, we should finish the homework which is assigned by the teacher.

One day when I was walking in the park, I witnessed an argument between two people. It was in the afternoon and the place was near the lake. A man and a woman seemed to be having a dispute about something. They were both quite emotional and their voices were getting louder. The man was gesticulating angrily while the woman looked frustrated. I think they could have handled the situation better by remaining calm and trying to communicate more rationally. In similar situations, people should take a deep breath and avoid getting overly worked up. It's important to listen to each other and try to find a solution through peaceful means rather than escalating the conflict.

One day when I was walking in the park, I witnessed an argument between two people. It was a sunny afternoon, and many people were enjoying the leisure time in the park. A man and a woman seemed to have a disagreement over a bench. The man wanted to sit on it, but the woman was already there and refused to give up the seat. One sunny afternoon, I was waiting at a bus stop near the shopping mall. There were several people around, some chatting, some looking at their phones.

Suddenly, an elderly man who was walking on the sidewalk tripped and fell. He was carrying a few shopping bags, and the

contents spilled out onto the ground. I immediately rushed over to help him. I noticed he had scraped his knee, and he seemed a bit dazed.

A few other people also came forward to offer assistance. One woman called an ambulance, while another helped to gather the items that had fallen from the man's bags. The incident happened at around 3 p.m. right in front of the bus stop.

After the ambulance arrived and took the elderly man away, I couldn't help but think about how quickly such accidents can occur. My advice to people in similar situations is to always be vigilant and aware of your surroundings, especially if you are elderly or have any mobility issues. It's also important for bystanders to offer help promptly, as a small act of kindness can make a big difference in someone's life.

【译文】目击事件

一个阳光明媚的下午，我在购物中心附近的公共汽车站等车。周围有几个人，有的在聊天，有的在看手机。

突然，一位走在人行道上的老人摔了一跤。他提着几个购物袋，里面的东西洒了一地。我立刻冲过去帮助他。我注意到他擦伤了膝盖，他看起来有点茫然。

其他一些人也挺身而出提供帮助。一名妇女叫了救护车，另一名妇女帮忙收拾从男子包里掉下来的东西。事故发生在下午3点左右，地点就在公交车站前。

救护车来了，把老人带走后，我不禁想到这样的事故发生得有多快。对于遇到类似情况的人，我的建议是时刻保持警惕，注意周围的环境，尤其是如果你是老年人或行动不便的话。对于旁观者来说，及时提供帮助也很重要，因为一个小小的善举可以给别人的生活带来很大的不同。

Yet a creative job, such as teaching, writing, scientific research, and management, which require more wisdom and imagination, may well release me from such vexation (烦恼).

In order to make my dream come true, I am studying undergraduate courses in business administration now in the Open University. I hope that in 5 years, I will have a job in a company as a manager, and in ten years, I will have a company of my own.

When I applied for the open education of the Open University of China, I was both excited and uneasy. I was excited that I had such a good opportunity to further my studies. I was uneasy that I was too old, and my learning ability and memory were not as good as before. Can I successfully complete my studies? However, thinking of the inconvenience caused by the lack of professional knowledge in my work, my desire to continue studying became stronger and stronger, and I resolutely applied for the Open University of China and chose a major closely related to my work.

After entering the Open University of China, I am faced with a brand-new learning mode, which is different from the traditional one-to-many face-to-face teaching. It mainly uses multimedia resources such as text, recording and video to learn. In order to adapt to this learning mode, "stupid birds fly first" and learned computer-related knowledge and the steps of surfing the Internet in advance. Fortunately, the teachers and classmates I met are warm-hearted people. During the study, the teachers and classmates help and encourage each other. We discuss the problems encountered in the study and share the interesting stories and pleasures in the study through the network platform in the class group.

Through unremitting efforts, I gradually mastered the method of on-demand and downloading online teaching resources at any time in the National Open University and distance teaching platforms at all levels through the Internet, and improved my ability to communicate and learn with teachers and students by means of network interaction. In the past two years, without delaying my daily work, I have systematically studied more than 20 courses of my major and successfully completed my studies.

进入中国开放大学后，我面对的是一种全新的学习模式，不同于传统的一对多的面授教学。它主要利用文字、录音、视频等多媒体资源进行学习。为了适应这种学习模式，我“笨鸟先飞”，提前学习了计算机相关知识和上网的步骤。幸运的是，我遇到的老师和同学都是热心的人。在学习过程中，老师和同学们互相帮

助和鼓励。我们在班级群中通过网络平台讨论学习中遇到的问题,分享学习中的趣事和快乐。

通过不懈的努力,我逐渐掌握了通过互联网在国家开放大学和各级远程教学平台上按需、随时下载在线教学资源的方法,提高了通过网络互动与师生交流学习的能力。在过去的两年里,在不耽误日常工作的情况下,我系统地学习了本专业的20多门课程,并顺利完成了学业。

写一段关于交流重要性的文章。您可以遵循给出的想法。

(1) 沟通在生活中很重要。

(2) 我们怎样做才能更好地与他人沟通?

(3) 可以实现有效的沟通。

【参考范文 1】

Communication plays a significant role in our daily life, especially in modern society. since we get along with other people in every field, we must learn how to communicate with people effectively.

Effective communication should be planned carefully. first, speak slowly and briefly in order to make ourselves understood completely. second, express ourselves in all sincerity and with warmth. third, concentrate on what the speaker says and appreciate his point of view. moreover, we should give positive feedback by nodding or smiling while listening. fourth, place ourselves in the place of others.

As far as i'm concerned, i communicate with other people in a positive way whether i'm in a merry mood or not. and i often express my own opinion genuinely and sincerely.

Communication between people is of utmost importance. The importance cannot be stressed too much.

It is said in the Bible that once upon a time, humans communicated with each other in one language. So they attempted to build the Babel Tower to communicate with God, only to find such dream was a castle in the air. In the aftermath, humans were trapped into troubles due to the misunderstandings between them. The jealous God plunged us into such bitterness. Even now, people with different races and religions are dragged into endless wars. People are crying and dying! Such consequences are rooted deeply in the lack of communication. Therefore, lack of communication will lead to perish of human beings.

On the contrary, mutual understanding can be well-established between people if we communicate with each other. That is, the rapport between two countries will be strengthened and the misunderstanding will be reduced if there is a dialogue channel. Likewise, friends can become closer if they argue with each other. No one likes to but it is necessary to be healthy. Arguments between people are a way of communication, by which we can find a solution to the conflicts between us. Consequently, we promote the mutual understanding.

To conclude, through communication, mutual understanding can be promoted and fostered between people with difference races, religions, sex and ideologies. One way is to argue (not totally means quarrels) during the communication to clarify the different views. Lack of communication will surely lead to perish of mankind.

【译文】人与人之间的沟通是最重要的。重要性再怎么强调也不为过。

《圣经》中说, 很久很久以前, 人类用一种语言交流。所以他们试图建造巴别塔来与上帝沟通, 却发现这样的梦想只是空中楼阁。在此之后, 人类因彼此之间的误解而陷入困境。嫉妒的上帝让我们陷入这样的痛苦。即使是现在, 不同种族和宗教的人们也被拖入无休止的战争。人们在哭泣和死亡! 这种后果深深植根于缺乏沟通。因此, 缺乏交流将导致人类的灭亡。

相反, 如果我们相互交流, 人与人之间可以建立相互理解。也就是说, 如果有对话的渠道, 两国之间的关系就会加强, 误解就会减少。同样, 如果朋友之间互相争论, 他们也会变得更亲密。没有人喜欢抽烟, 但是保持健康是必要的。人与人之间的争论是一种沟通方式, 通过它我们可以找到解决我们之间冲突的方法。因此, 我们促进了相互了解。

总之, 通过交流, 可以促进和培养不同种族、宗教、性别和意识形态的人之间的相互理解。一种方法是在沟通过程中争论(不完全意味着争吵), 以澄清不同的观点。缺乏交流肯定会导致人类灭亡。

As more and more people focus on low-carbon life, the lifestyle of saving energy has begun to draw more and more attention of the public.

Low-carbon life is of great importance to everyone. For one thing, it can protect the environment to a great extent. For another, it can save the limited natural resources and energy, and will leave a better world for our offsprings. Last but not the least, it is a healthy lifestyle and will help mould a harmonious social atmosphere.

Therefore, how to create a low-carbon life is necessary for us to consider. To begin with, we should save energy, such as the electricity, water and domestic gas. And the person who has the greatest influence on me is undoubtedly my mother. My mother is nothing different from ordinary people, but what affects me the most is her tolerance, understanding, open-mindedness and silent love reflected by her normal heart.

When I am frustrated by failure, she will gently touch my head and say, "Son, failure once or twice does not mean failure forever. Mom believes that you will be better tomorrow than today." Her words, like a ray of warm sunshine, melted my melancholy and enabled me to face any setbacks with a normal mentality. In my life, my mother has always been the most loving person around me, caring and attentive, knowing the cold and knowing

当我处于人生的低谷时，我的父母总是在那里，他们总是支持我所做的决定，即使我没有选择最明智的道路。他们爱我，他们将永远是英雄。

当我3岁时，他们被告知我有学习障碍，人们说我在学习和理解事物方面有问题；我太慢了。我的父母拒绝了对我的诊断，说我需要的只是一些动力。他们激励我尽最大努力做事。现在我的能力比以前好了。

【参考范文 1】 I Have a Dream

Everyone may have his own dream. Someone may want to be rich, someone may want to be beautiful, and someone may want to have power. But I'm different from them. My dream is special. I want to have a pair of wings because I want to fly in the sky. I like the feeling of freedom.

If I have a pair of wings, I'm sure it will be very wonderful. I can fly below the blue sky with the birds. I can enjoy the music of birds. I can fly across the cloud, and the small wind will blow past my face. I can fly over the sea, below the rainbow, through the forest. I can see all the wonderful view.

But I know that it will never be true. So I have another dream instead: I want to have a plane of my own. The plane must be very small and light. It has to carry only one person. It can fly by wind or sunshine. It can fly for a very long time. And the important thing is that it must be very safe.

I'm sure I can have this plane some day. And I can fly to everywhere I want.

但我知道这永远不会是真的。所以我有另一个梦想：我想拥有一架自己的飞机。飞机必须是非常小和轻的。它只能载一个人。它可以靠风或阳光飞行。它可以飞很长时间。重要的是，它必须非常安全。

我相信总有一天我能拥有这架飞机。我可以飞到任何我想去的地方。
